

## **PRESS RELEASE**

Palencia, March 14, 2024

### **Zunder Joins Motus-E Alliance to Drive Electric Mobility in Italy**

- Motus-E is Italy's leading association for promoting electric mobility, with over 100 members.

Zunder, a leading ultra-fast electric vehicle charging operator in Spain and Southern Europe, has joined the Motus-E alliance, Italy's foremost association of industrial operators, the automotive supply chain, academia, and advocacy groups. The aim of this collaboration is to accelerate the transition to electric mobility.

Zunder's participation in Motus-E represents a key step in its international expansion, laying the groundwork for its upcoming presence in the Italian market, following its already established operations in Spain, France, and Portugal. Motus-E is well known for its leadership in promoting electric mobility in Italy, and it offers Zunder a unique platform to collaborate with various industry stakeholders and contribute to the development of innovative and sustainable solutions.

According to the latest report from Motus-E, published on March 1, 2024, Italy has seen significant growth in electric vehicle adoption, with 23,000 new registrations so far this year. The country has also expanded its charging infrastructure, now boasting a total of 50,678 charging points nationwide. These figures paint a promising picture for electric mobility in Italy and highlight the importance of the partnership between Zunder and Motus-E.

Through this alliance, Zunder aims to drive the electric mobility transition in Italy and across Europe by contributing to the development of innovative and sustainable solutions that support environmental protection and the advancement of a greener transportation future.

#### **Ignasi Crespo, Director of International Expansion at Zunder, said:**

“This partnership underscores our international expansion strategy and our firm commitment to leading the electric revolution in Italy and Southern Europe.”

With over 100 members and external partners representing the entire value chain in Italy, Motus-E has become a European leader in the shift towards sustainable vehicles and the promotion of electric mobility as a key to environmental protection. For Zunder, this partnership represents an opportunity to actively participate in a meaningful shift within the mobility industry. Additionally, it emphasizes Zunder's goal of strengthening its presence in a fourth European country.

Together, Motus-E and Zunder will work to accelerate electric mobility, promote innovation, and lead the way toward a more sustainable future. Zunder's network already includes over 600 proprietary charging points, and thanks to the interoperability of its app, Zunder users can access thousands of charging stations across Europe's road network, ensuring fast and secure payments.
